## Cryptocurrency

Bitcoin or cryptocurrency mining is the process of creating new bitcoin by solving a computational maths puzzle. Bitcoin mining is very necessary to maintain the ledger of transaction upon which bitcoin is based.

## Agriculture

Investing in agriculture means putting your money behind food and crop production, processing, and distribution. As the world needs to feed a growing population and with less land, interest in agriculture production increases.

## Medical Cannabis

For many years we have been working conscientiously and with the most diverse technologies and means. We have also completed numerous investments across multiple verticals and sectors in the medical cannabis industry.

## Gold

Investing in agriculture means putting your money behind food and crop production, processing, and distribution. As the world needs to feed a growing population and with less land, interest in agriculture production increases.
